

10xPURE™ Ultimate Multi-Vitamin & Mineral Supplement

10xPURE™ Supercharged oil is the most exciting new ingredient for people exploring opportunities for optimal vitamin & mineral benefits, helping you live a more active and healthier life. We start with a logical scientific approach so that each exceptional ingredient is in a compatible form that your body can recognize.

Your body is receiving a synergistic combination of life enhancing nutrients not available in most multivitamins on the market.

This includes :

- Superior amino acid chelated minerals for absorption.
- The most biologically active form of folate, as 5-MTHF (also called L-methylfolate) which does not require any additional work by your body to use and has been shown to support cardiovascular health, cognitive health, and more.
- Vitamin K2 as MK4 and MK7 for absorption targeting bone and vascular health.
- Vitamin B12 as methylcobalamin in the form that works synergistically with folate in the brain.

We combined 10xPURE™ with 23 exceptional ingredients to create a science-based formulation, utilizing the 10xPURE™ proprietary technology to support penetration and absorption of the key ingredients.
